Origami Patterns You'll Love Check out these 15 inspiration projects for origami enthusiasts that you just might be tempted to try if you know your stuff. 1. Origami lion Who would not want to create a beautifully collected homage to the king of the jungle? Head, face and mana will be your biggest challenge here, but your body is straight ahead if you've shinged other animal patterns before. 2. Origami F-18 Hornet Plane You are talking about a paper plane! This pattern takes away your average hash plan from elementary school days to the whole other level and back. Make sure to focus around these wings and behind the tail. This is where this pattern gets a little tangled up. Video tutorial with Ken00Master. 3. Dragon origami This dragon looks force and ready to fly away when everything is foldable and finished! Your challenge here will be small details around your head, like mouth, horns, and ears. Tutorial by Wonder How. 4. Origami ade These ade are nicely decorative, especially if you use slight metal paper for the top, such as the ones in this picture. The top is also part of this pattern, which you will need to pay special attention to! Video tutorial by Jo Nakashima. 5. Geometric bride and groom These little bride and groom characters may not look particularly complicated, but their geometric style calls for very clean lines and tidy folds to make them look right. If they're all crushed out of the wrong lines, they won't even show up ready for their wedding day! Video tutorial by Jo Nakashima. 6. Origami parrot propyotion are the key with this little parrot! If you misrepresent the size of a skirt and it's one larger than the other, it might not balance it on your finger as well as the parrot in the picture. Video tutorial on YouTube. 7. Advanced origami butterfly This adorable butterfly pattern pays attention to form, folding lines and color, so you need to be particularly moderate about how your paper is turned with each fold. We love wing tails! 8. Origami toucan This magnificent little folding toucan has an air of prestige about him that we really enjoy. Be careful to pay attention to the shape of his kŠuna and folds at the back, where his folding wings and tail feathers are. Read more about gilad origami. 9. Dollar origami hang glider Not necessarily to make your drifting glider and its rider out of dollar, but it certainly looks cool when you do! Folding the heads and arms of cyclists will be slightly more challenging than larger sections, such as the wings of a glider. Politely from the Great Van. 10. Origami Jedi Master Yoda This amazing detailing little Yoda recreation is challenging all round, but it's totally worth it! Take the car when folding your face, and even when you're swapping paint to wrap it in its collar.
