Editorial reviews Publisher Synopsis An exemplary study of an ideas long march through domains from urbanism to social justice. It's also possible to pin an item on the Clipboard history list. Dr. Andrew Steer Special Envoy for Climate Change The World Bank Group Your Royal Highnesses, Excellencies, Ladies and Gentlemen, Let me begin More information Rainforest Concern Module 2 Why do we need rainforests? The word is nearly ubiquitous: at the grocery store we shop for "sustainable foods" that were produced from "sustainable agriculture"; groups ranging from small advocacy organizations to city and state governments to the United Nations tout "sustainable development" as a strategy for local and global stability; and woe betide the city-dweller who doesn't aim for a "sustainable lifestyle." Seeming to have come out of nowhere to dominate the discussion-from permaculture to renewable energy to the local food movement-the ideas that underlie and define sustainability can be traced back several centuries. That way, it will stay on the list even if you reboot the computer or click a "Clear All." To do so, click on the three-dot menu and select "Pin." You can unpin the item later by selecting "Unpin" from the ellipses menu. hope this excellent book is read urgently, widely and with serious attention by everyone who might change our society.
